VIRTUAL VISITS FOR ONLINE THERAPY

With the addition of online therapy to the Amwell web and mobile app, you will be able to schedule appointments for on demand video visits with a psychologist or counselor to address common behavioral health challenges—all from the privacy of your own home.

Therapy visits on Amwell are:

- ▶ 45-minute, video-based sessions on your smartphone, tablet or computer
- ▶ With a licensed and highly trained therapist or psychologist
- ▶ Available seven days a week, from 7am to 11pm
- ▶ An alternative option to in-person behavioral health visits

Why is Amwell #1?

"Amwell is incredibly easy and efficient. The best way to describe it is to say that it's FaceTime with a doctor. I highly recommend this service for anyone who doesn't have time to make an appointment and drive to a doctor's office."

Benefits of Virtual Visits

Private

Amwell's extended availability and mobile technology means you can see a therapist from your own home, on your own schedule.

Timely

On average, you'll wait 5 weeks for a therapy appointment in Wisconsin. With Amwell, it only takes up to a week (typically 24 hours).

Effective

Online, video-based therapy is as effective as in-person therapy, according to a recent study in The Journal of Affective Disorders.

AMWELL SAVES MONEY

Amwell knocks down barriers to getting mental health care, helping you get the care you need—at a fraction of the cost.
