Smart Healthcare Toolkit

VALUE-BASED PROGRAMS

INCLUDED IN YOUR HEALTH PLAN

Smart Healthcare Toolkit

KEEPS YOU ON THE CUTTING-EDGE

We created the Smart Healthcare Toolkit to help you get the most out of your health benefits. The Toolkit includes a mix of forward-thinking programs and high-touch tools that have been carefully selected by WEA Trust to help keep your employees healthy, while containing costs.

All WEA Trust fully-insured and jointly self-funded health plan customers have access to our Smart Healthcare Toolkit at no additional cost.

Amwell E-visits

SAVES TIME AND MONEY

Amwell is WEA Trust's telehealth solution for the minor acute care issues that often drive members to costly urgent or emergent care. With Amwell, your employees can see a doctor in less than 10 minutes using the video on their smartphone, tablet or computer.

Doctors on Amwell can quickly treat cold, flu, rashes, infections and more—helping your staff feel better, faster.

Amwell is one of WEA Trust's most popular health care tools because members love its convenience. Amwell is available 24/7 from wherever there is internet access. That means your staff can talk to a doctor on their lunch break or from their bed in the middle of the night.

Amwell is not only convenient; it saves you money. On average, each Amwell e-visit saves around \$180.

And after you become a WEA Trust customer, we will provide promotional resources to help get your employees signed up and using Amwell.

"My first experience with Amwell was on a Sunday night for a sinus infection. I was able to call from home, versus loading up my two children to head in to urgent care. The doctor was great to work with and made sure all of my questions were answered."

Laura Karlen

Counselor, West De Pere Middle School

Livongo for Diabetes

REMOVES BARRIERS TO GET RESULTS

Diabetes is consistently one of the top cost drivers for group medical plans across the country. Wisconsin alone spends \$6.5 billion annually on diabetes-related care and workplace productivity costs. That's why WEA Trust established a preferred partnership with Livongo Health, offering their industry-leading program at no additional cost to members diagnosed with diabetes.

STEP 1 – SMART TRACKING

Livongo removes the financial and physical barrier to consistent tracking. Your employees who participate in Livongo will receive an interactive cellular glucose meter and unlimited test strips and lancets—all for free.

STEP 2 – SUPPORTED IMPROVEMENT

Livongo's smart meter provides instant feedback on blood glucose (BG) levels. When members have questions or their BG levels are out of range, Certified Diabetes Educators are available 24/7 for support.

Active Livongo participants decrease their HbA1c over time—which can drive between 2.5x – 5.5x ROI.

Harmony Care Management

LEADS INDUSTRY IN IDENTIFYING VALUE

Harmony is WEA Trust's innovative care management and shared decision-making program that puts our members first.

Our interactive, evidenced-based approach won the 2015 Doyle Award and reduced costs by \$12 million. So what sets us apart?

Every WEA Trust member has a dedicated Harmony nurse who will serve as their “quarterback,” guiding them through complex healthcare decisions or chronic medical conditions.

For example, your employee's Harmony nurse can help them transition home from an inpatient hospital stay or find the best treatment for persistent low back pain.

When one of your employees needs help, they can count on having a single point of contact assist them. And you can count on your employees getting the care that's most appropriate and cost-effective.

Healthy Choice Incentives

ENGAGES MEMBERS IN HEALTHCARE CONSUMERISM

WEA Trust offers a statewide provider network that is consistently reviewed to ensure participation by only high quality providers. Our network also includes provider options that are Trust-verified to be exceptional in terms of value and quality.

When your employees use these providers, they'll receive a VISA Incentive Card as a thank you for making smart choices.

These include providers like Smart Choice MRI and the Orthopedic Sports Institute of the Fox Valley.

Steering toward provider value, such as bundled payments on orthopedic procedures and 90-day care warranties.

SMART CHOICE MRI

The average MRI in Wisconsin costs about \$3,000. Conversely, Smart Choice MRI offers advanced imaging for a fraction of the cost—without sacrificing quality. Scans are created by the leading GE MRI technology and are interpreted by board-certified radiologists at the Cleveland Clinic.

- ▶ Members receive a \$100 VISA Incentive Card

ORTHOPEDIC SPORTS INSTITUTE OF THE FOX VALLEY (OSI)

OSI offers bundled pricing on more than 45 orthopedic procedures, such as the consultations, surgery and therapy needed for a knee replacement. With some of the lowest infection and re-admission rates in Wisconsin, OSI offers a 90-day warranty for all procedures.

- ▶ Members receive a \$250 VISA Incentive Card
