

AMENDMENT

to the WEA Trust Essential Health Plan

This amendment modifies your WEA Trust Essential Health Plan Certificate of Coverage.

The “Appendix” is amended by adding the following “Global Office Visit Benefit” provision to the end of the “Optional Benefit Provisions” section:

Global Office Visit Benefit

This benefit provision applies to your coverage only if your Benefit Summary indicates “Global Office Visit Benefit”

To incorporate this benefit into your health plan, this benefit provision modifies Section 4, “General Provisions That Apply to All Benefits.” Under “Factors That Affect the Reimbursement Amount,” the following provision is inserted between the provisions entitled “You Will Save Money When You Use Network Providers” and “Reimbursement for Emergency Services from Non-Network Providers.”

Reduced Cost-Sharing for Network Office Visits and Other Network Services

We will not apply the deductible or coinsurance to any covered office visit with a Network provider. You are responsible for the Network office visit copayment identified on your Benefit Summary.

We will not apply a deductible, coinsurance or copayment to covered Network laboratory, ultrasound, and X ray services provided within seven calendar days prior to or within seven calendar days after the date of the Network provider office visit.

We will also not apply a deductible or coinsurance to any covered outpatient medical visits for Chiropractic Treatment, Mental Health or Substance Abuse Treatment, or Physical, Speech, or Occupational Therapy with a Network provider. You are only responsible for the copayment identified on your Benefit Summary.

Note: This benefit does not apply to routine maternity care services.

Amendment Effective Date—This amendment is effective for new groups that enroll on or after July 1, 2017, and for groups that renew on or after July 1, 2017.
